Stamp Duty

5088. SHRI LAJPAT RAI: Will the Minister of TOURISM AND CULTURE be pleased to state:

(a) whether it is a fact that the stipulated stamp duty on property sale ranges from 8 to 14 per cent but the duty on transfer of equity is just 0.5 per cent of the sale price;

(b) whether it is also a fact that in the process, the buyers will be able to save about Rs. 200 crores on stamp duty;

(c) if so, whether it is a fact that ITDC has alreadey utilized this method for its 22 properties, 4 hotels which are stated to be sold on long-term lease-cum-management contract; and

(d) if so, what steps are being proposed by Governemnt to save the stamp duty?

THE MINISTER OF TOURISM AND CULTURE (SHRI JAGMOHAN): (a) to (d) On the recommendation of the Disinvestment Commission the Government had decided that the hotels of ITDC other than those in prime locations like Delhi and Bangalore may be demerged into separate companies with the shadow shareholding pattern of ITDC and for disinvestment of 100% Government shareholding in these demerged companies. Ministry of Disinvestment has informed that each of the hotel units have been/would be sold on a 'going concern' basis and not in the form of real estate. Therefore, all contracts, assets, liabilities, litigations and employees of the hotel units would also be transferred to the respective bidders. The rate of stamp duty on transfer of real estate varies from State to State.

Fully paid up shares of these demerged companies have been/would be sold to the selected bidders. The stamp duty on transfer of shares is 0.5% of the sale consideration. Since the hotel properties of ITDC are not being sold on real estate basis, it would be inappropriate to evaluate the likely stamp duty collection by the Government on the real estate part of the 'going concern'.

The bidding process allows the bidders to assess their total liability on assuming the sale of the property as 'going concern'. Therefore, if they had to pay a higher stamp duty, they would have factored this into their bid and would
